## CONTROLLING SYMPTOMS IN DIABETES

A technical medical friend said: "You don't cure diabetes; you make them think they are better and prolong their lives for a while."

Suppose that is true and suppose Mrs. Kline, of San Francisco, a niece of the late U. S. Supreme Justice Stephen J. Field, was cured when she was still living at last, after six months' treatment, when she went off to Europe, and a few years ago, she would still show some sugar, and that she has even now to take the compound occasionally to keep well.

And suppose that a professor in one of the Universities of Virginia who was given up with Diabetes in 1893, still living at last, after six months' treatment, when he went off to Europe, and a few years ago, he would still show some sugar, and that he has even now to take the compound occasionally to keep well.

## EMPEROR'S SON DIES AFTER LONG ILLNESS

Prince George Is Victim of Incurable Disease, and Expires at Private Hospital.

BY LA MARQUISE DE FONTENOY.

EMPEROR ALEXANDER II'S son, Prince George Yurievskii, has passed away, after a long and incurable illness, in a private hospital at Marburg, in Hesse. He was born out of wedlock, and was eight years of age when the Czar Liberator was able to legitimize him, after a fashion, by contracting an ecclesiastical marriage with the boy's mother, Princess Catherine Dolgorouka, a few months after the demise of his first wife, Empress Marie.

Alexander II. was very fond of this son of his. There are many who allege that it was for the lad's sake that he married the mother, upon whom he bestowed the title of Princess of Saxe-Altenburg, and with him was subjected to the humiliation of being bankrupted, and of having all their belongings sold by public auction at Florence for the benefit of their creditors, because her mother refused to come to their assistance. Alexander Bariatinski was already ill at the time, and the affair precipitated his death.

The other daughter, Olga, is the wife of Count Georges Merenberg, brother of Countess Torby, the morganatic wife of Grand Duke Michael Michaelovitch, and like her, a child of the late Prince Nicholas of Nassau-Luxemburg, and of Natalie Puskink, daughter of Russia's most famous poet, Alexander Pushkin, and of the late Prince Nicholas of Nassau-Luxemburg, who delivered an especially strong and telling discourse. The handsome new pipe organ was used for the first time. The church is of white pressed brick, and was erected at a cost of \$30,000. Rev. Charles E. Hodgins, who has been with the church many years, is pastor.

Just before the Founders' Day exercises at the State Normal and Industrial College yesterday, there was a happy little meeting in one of the society halls, when Mrs. James R. Young, of Norfolk, a daughter of the late Dr. Melver, on behalf of the alumnae of the college, presented to Miss Kirkland, who has been the principal of the school since its opening, a beautiful
